Department of Personnel and Training

Date 21/7/1997

Subject:- Reservation roster-post based-implementation of
the Supreme Court Judgement in the case of
R.K. Sabharwal v. State of Punjab.

The undersigned is directed to say that under the existing instructions, vacancy-based rosters have been prescribed in order to implement the Government's policy relating to reservation of jobs for the Scheduled Castes, the Scheduled Tribes and the Other Backward Classes. The application of reservation on the basis of these rosters was called into question before Courts. The Constitution bench of Supreme Court in the case of R.K. Sabharwal Vs. State of Punjab as well as J.C. Mallick Vs. Ministry of Railways has held that the reservation of jobs for the Backward Classes SC/ST/OBC should apply to POSTS and not to VACANCIES. The Court further held that the vacancy-based rosters can operate only till such time as the representation of the persons belonging to the reserved categories, in cadre, reaches the prescribed percentage of reservation. Thereafter, the rosters cannot operate and vacancies released by retirement, resignation and promotion, etc., of the persons belonging to the general and reserved categories are to be filled by appointment of persons from the respective category so that the prescribed percentage of reservation is maintained.

2. The Court also held that persons belonging to the reserved categories, who are appointed on the basis of Merits - and not on account of reservation - are not to be counted

points shall be drawn up on the lines of the respective model rosters;

(d) Since reservation does not apply to transfer on deputation/transfer, where the recruitment rules prescribed percentage of posts to be filled by this method, such post shall be excluded while preparing the rosters;

(e) In small cadre up to 13 posts, the method prescribed for preparation of rosters does not permit reservation to be made for all the three categories. In such cases, the Administrative Ministries/Departments may consider grouping of posts in different cadres as prescribed in this Department's O.M. No. 42/21/49-NCS, dated 28-1-1952 and subsequent orders reproduced at page 70 to 74 of the Brochure on reservation for Scheduled Caste and Scheduled Tribe (eight editions) and prepare a common roster for such groups. In the event it is not possible to resort to such grouping, the enclosed roster (Appendices to Annexures - II, III & IV) for cadre strength up to 13 post may be followed. The principles of operating these rosters are explained in the explanatory notes.

5. At the stage of initial operation of roster, it will be necessary to adjust the existing appointment in the roster. This will also help in identifying the excesses/shortage, if any, in the respective categories in the cadre. This may be done starting from the earliest appointment and making an appropriate remark "utilized by SC/ST/OBC/Gen" as the case may be, against the each point in the roster as explained in the explanatory notes appended to the model rosters. In making these adjustments, appointment of candidates belonging to SCs/STs/OBCs which were made on merit (and not due to reservation) are not to be counted towards reservation so far as direct

... 4 ...

direct recruitment is concerned. In other words, they are to be treated as general category appointments.

6. Excess, if any, would be adjusted through future appointments and the existing appointment would not be disturbed.

7. All Ministries/Department are requested to initiate immediate action to prepare rosters and operate them according to these guidelines.

8. That the existing order on the subject are deemed to have been amended to the extent herein.

9. The Orders shall take effect from the date of their issue. However, where selection have already been finalized, they did not be disturb and the necessary adjustment in such cases may be made in future. In other cases, recruitment may be withheld till the revised rosters are brought into operation and recruitment effected in accordance with these instructions.

ANNEXURES - I

O.M. No. 36012/2/96-Estt. (Res.) dated 2.7.1997

EXPLANATORY NOTES:-

PRINCIPLES FOR MAKING AND OPERATING POST-BASED ROSTERS

1. As hitherto, these rosters are only an aid to determine the entitlement of different categories with regard to the quota reserved for them. They are not to determine seniority.
2. The model rosters have been drawn of keeping in mind two fundamental principles - the reservation for the entitled categories is to be kept within the prescribed percentage of reservation and the total reservation should in no case exceed 50% of the cadre.
3. There should be separate roster for direct recruitment and for promotions, where reservation in promotion applies.
4. The number of points in each roster shall be equal to the number of posts in a cadre.
5. While cadre is generally to be construed as the number of posts in a particular grade, for the purpose of preparation of roster, it shall comprise post required to be filled by particular mode of recruitments in terms of the applicable recruitment rules. To illustrate, in a cadre comprising 200 posts, where the recruitment rules prescribed a ratio 50:50 for direct recruitment and promotion, the roster for direct recruitment shall have 100 points and that for promotion shall have 100 points thus making a total of 200.
6. As indicated in the model roster, the method for making a roster is to multiply each post by the prescribed

percentages of reservation for the different reserved categories. The point at which the multiple for a community obtains a complete number or oversteps the number is to be reserved for that community - while taking care to evenly space out the different reserved categories. Thus, at point No. 15, in the roster at Annexure-II, both CEC and SC get entitled. However, since earlier reserved point has gone to CECs point No. 15 has been reserved for SC and point No. 16 for CEC.

7. Since reservation does not apply to transfer/transit on deputation, where rules prescribed a percentage of posts to be filled by this method, the corresponding proportion of posts should be excluded while drawing up the rosters.

8. It would be noted that at the end of the roster, "squeezing" has been done for the reserved categories to reach the number of posts to be reserved for them without violating the 50 percent limit laid down by the Courts. While the drawing up the rosters, the cadre controlling authorities should similarly "squeeze" the last point of the roster. Such squeezing may not, however, be done where it would violate the rule of 50 percent.

9. Whenever there is any increase or decrease in the cadre strength the roster shall be correspondingly expanded or contracted. The same will also apply whenever there is change in recruitment rules which affects the proportion of posts to be filled by a particular mode of recruitment.

10. The roster is to be operated on the principle of replacement and not as "running account" as hitherto. In other words, the points at which reservation for different

categories applies are fixed as per the roster and vacancies caused by retirement, etc., of persons occupying those points shall be filled by appointment of persons of the respective categories.

11. While operating the roster, person belonging to communities whom reservation has been made, but who were appointed on merit and not owing to reservation, should not be shown against reserved points. They will occupy the un-reserved points.

12. In the case of the same cadres (upto 13 posts) all the posts shall be earmarked on the same pattern as in the model post based rosters. Initial recruitment against these post shall be by the category for which the post is earmarked. Replacement of incumbents of posts shall be by rotation as shown horizontally against the cadre strength as applicable. While operating the relevant rosters, care will have to be taken to ensure that on occasion the percentage of reserve category candidates exceed 50% if such a situation occurs at any time, the relevant reserved point occurring as a result of rotation will be skipped.

INITIAL OPERATION

1. At the point of initial operation of the roster, it will be necessary to determine the actual representation of the incumbents belonging to the different categories in a cadre vis a vis the points earmarked for each category viz SC/ST/OBC and general in the roster. This may be done by plotting the appointment made against each point of roster starting with the earliest appointee. Thus, if the earlier appointee in the cadre happens to be candidate belonging to

the Scheduled Caste, against point number 1 of the roster, the remark "utilized by the SC" shall be entered. If the next appointee is general category candidate, the remark "utilized by general category" shall be made against the point No. 2 : and so on and so forth till appointment are adjusted in the respective roster. In making those adjustments, SC/ST/CPC candidates on merit, in direct recruitment shall be treated as General category candidates.

2. After completing the adjustment as indicated above, a tally should be made to determine actual percentage of representation of appointees belonging to the different categories in the cadre. If there is an excess 50%, it shall be adjusted in the future recruitment. Vacancies arising from retirement, etc. of candidates belonging to such categories shall be filled by appointment of candidate belonging to the Categories to which the relevant roster points against which the excesses occurs, belong.

3. Since, recruitment is generally vacancy based it may happen that the actual number of promotees and direct recruit in the cadre doesn't correspond to the number of post earmarked in the respective reservation of roster. For the purpose of calculations of representation of reserved category in a cadre, total of promote and direct recruit may be taken. Rectification of the representation as prescribed percentage by the prescribed mode of recruitment at the earliest possible however should be the goal.
